

It has been brought to my attention that The National Association of Broadcasters (NAB), the organization that represents the large radio and television owners, is using its lobbyists, campaign contributions and political influence to have Congress and the Federal Communications Commission limit XM's ability to provide "locally oriented" content, including the new XM Instant Traffic & Weather channels.

I cannot believe you are even considering such a thing. I personally could not imagine not having XM radio, probably for the reasons big money doesn't want me to have it or wants to have it limited.

Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear.

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that you demand and deserve.

This is NOTHING but a big buck effort to make more big bucks at my expense.

Sincerely  
Lisa Windflower
